

Press release, 18 November, 2016

## Team Olivia acquires Connexa Barnevern in Norway

**Team Olivia has acquired Connexa Barnevern AS which conducts operations in family homes and strengthens our offering in youth care in Norway.**

Connexa Barnevern AS is based in Lilleström, outside Oslo, and conducts operations in family homes in several locations in Norway. Connexa's activities are primarily aimed at children and young people who are in need of a secure and stable care situation which a qualified family home can offer.

The acquisition was completed on November 17 and proposes no changes for the operations, management or staff.

- We are very pleased that Connexa Barnevern is now part of Team Olivia. Connexa is driven by a strong personal commitment and are adept at recruiting and developing family homes based on needs for both long-term and emergency placements. The acquisition is developing our offering in family homes and we are able to reach more customers in Norway, says Kjetil Ørbeck, Head of Team Olivia Norway.

- Team Olivia's organisation and management in Norway has made a strong impression on us. Connexa has grown rapidly and by joining Team Olivia we see many advantages and exciting opportunities to support more vulnerable children and young adults, says Therese Rieber-Mohn, CEO Connexa Barnevern.

### **ABOUT TEAM OLIVIA**

---

Team Olivia is one of the largest private operators in the care market in Sweden, Norway and Denmark. We offer services in personal assistance, individual and family care and home care. Operations are conducted close to our customers under local brands. We are established in more than 160 business locations and altogether we employ just over 11,000 personnel. By continuing to grow while improving the quality of our services, we are offering more people with functional impairments, or who in some other way find themselves in a vulnerable situation, the chance of living a full and stimulating life.
